- The Complete JavaScript Instructors by Jonas Schmedtmann (Udemy) – March'25 *(Link)*

EXPERIENCE (Freelance Projects)

Mute marketing.com *(Link | Github)* — *West Bengal, India*
Frontend development — *Oct – Nov, 2025*

- Built a complete 5-page responsive marketing website (Home, About, Services, Portfolio, Contact) using React.js.
- Implemented contact form email functionality using Web3Forms API.
- Handled full client communication, requirement gathering, and project delivery independently.
- Delivered the project within 1 month and received positive client feedback for improved customer engagement.

Karmbhumi.fun *(Link | Github)* — *West Bengal, India*
Frontend Development — *Oct, 2025*

- Improved UI and interactivity of an existing website using HTML and CSS.
- Redesigned navbar, added a new contact form, and updated member images for better visual consistency.
- Performed basic design audit and usability improvements based on client needs.
- Communicated directly with the client and completed the redesign within the agreed timeline.

PROJECTS

Pizzape *(Github | Live Demo)* — *June 2025 – Jul 2025*

- Built a mobile-responsive pizza ordering web app using React.js and Tailwind CSS.
- Integrated React Fast Pizza API to display live menu data.
- Implemented location-based address auto-fill using Geolocation API and BigDataCloud Reverse Geocoding API.
- Designed a fully client-side application with smooth user experience and responsive layout.

AdminLTE Application *(Github | Live Demo)* — *Aug 2025 – Sept 2025*

- Developed a full-stack CRUD user management system using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT-based authentication with secure login, registration, and protected routes.
- Built REST APIs with Express and Mongoose for user data operations.
- Created modular React components for forms, tables, navbar, and responsive UI.
- Gained hands-on experience in full-stack workflows, API integration, and deployment.
